RESPONSE TO COMMUNICATION

Dear Sir:

This is a response to a notice to comply with requirements for patent applications containing nucleotide and/or amino acid sequence disclosures, sent July 26, 2001, a response to which is due prior to August 3, 2001.

REMARKS

Enclosed please find:

- (i) a nucleotide and/or amino acid listing in a computer readable form;
- (ii) nucleotide and/or amino acid listing in a paper form; and
- (ii) a copy of the Notice.

A mistake was found in the second amino acid of SEQ ID NO:14, which should be K and not R. The presently filed SEQ ID NO:14 was corrected accordingly. Support for this correction comes from the corresponding nucleic acid sequence (SEQ ID NO:13) which codes for K and not R in that position. No new matter was added.
